Computer Science Student | Full-Stack Developer & Digital Marketing Specialist

Computer Science undergraduate (7th semester) with hands-on experience running a freelance digital marketing and branding practice for real clients, combined with growing full-stack web development skills (React, Next.js, TypeScript). Proven ability to manage end-to-end brand growth — from content strategy and lead generation to website deployment — for small businesses, including a tax and legal advisory firm. Seeking opportunities to apply technical and marketing skills in a professional, growth-focused environment.

Project: Travel Booking Website

Description:

Developed a responsive travel booking web application that allows users to browse destinations, view tour packages, and submit booking requests through an intuitive user interface.

QJ Tax & Legal

02/2026 – Present

Founder & Freelance Digital Marketing Consultant

- Designed and produced professional social media posts and branding assets for a tax and legal advisory business, using AI-assisted design tools to accelerate turnaround.
- Built and executed a peak tax season marketing strategy, including Active Taxpayer List (ATL) awareness campaigns and tax return filing promotions.
- Developed a growth roadmap for Facebook and led LinkedIn brand positioning to increase client visibility and inbound leads.
- Wrote scripts for AI-generated marketing videos and coordinated content calendars across platforms.
- Designed and built a client portfolio website to support lead generation and credibility.

Safe Storage Cargo Dubai

06/2022 – 10/2023

Social Media Manager • Freelancer

Dubai

- Designed and created engaging social media posts and promotional graphics for Facebook and other digital platforms.
- Published and managed content across Facebook pages, groups, and other social media channels.
- Wrote compelling captions and selected relevant hashtags to maximize reach and engagement.
- Promoted cargo, logistics, and shipping services through creative marketing campaigns.
- Monitored audience engagement by responding to comments and messages in a timely manner.
- Tracked post performance and optimized content strategies based on engagement insights.
- Increased brand awareness and customer engagement through consistent and targeted content marketing.

AI For Everyone

HDS (Hassan Digital School)

05/2026 – 07/2026

Social Media Marketing

HDS (Hassan Digital School)

06/2026 – 07/2026

PROJECTS

Travel Booking Website

07/2026 – 08/2026

Decodelabs

- Developed a responsive travel booking platform using HTML, CSS, Bootstrap, JavaScript, React, Node.js, Express, and MongoDB.
- Implemented user authentication, booking functionality, and destination management.
- Integrated REST APIs for seamless communication between frontend and backend.
- Optimized UI/UX for improved user engagement and mobile responsiveness.
- Managed source code using Git and GitHub.

Personal Portfolio Website

Built and deployed a responsive portfolio using React, Next.js, TypeScript, and Tailwind CSS; hosted on Vercel with a working contact form integration.

AI-Powered Resume Analyzer (Final Year Project)

Designing an application that leverages AI to evaluate and provide feedback on resumes.
